

DIGIEN CA OFFICE PRO

The greatest driving force in the growth of Indian economy is none other than its army of Chartered Accountants. It is well said that these intellectuals actually did not allow slipping the country during global slowdown. These economists are driving MSMEs, heart of India's acclaimed progress. Be it any segment, Large, Medium or Small, all businesses are managed by CAs. These enterprises rely heavily on wits of them. And therefore, CAs are very much loaded with managing large number of businesses throughout the year.

Work of CAs is heavily dependent on manual jobs. Going through financial transactions of each client, studying their processes, assessing these policies, planning their operational & financial growth is time taking, cumbersome and heavily reliant on manual paper work tasks. It is very much required to plan these tasks, manage them, track their execution and ultimately convert them to monetary outcomes for CAs.

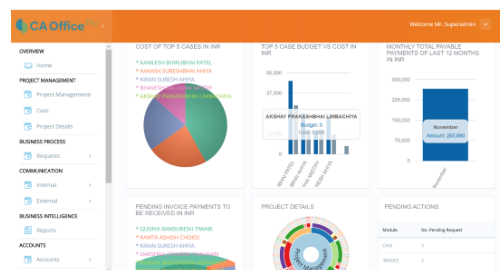

Almost in every case it happens that staffs of CAs actually perform far much work for every client than documented in final invoice for the client. It's not always about billing the clients much but actually about knowing in fact how much effort is spent after each client. This kind of analytics actually helps in growth of CAs and helps identifying their strongest and weakest points. The solution must be comprehensive to provide entire management of the organization under one umbrella.

SOLUTION

Today, a tool is required to plan, manage & track all tasks done by staffs of CAs. It is certainly possible to carry this out for permanent & recurrent clients. Spreadsheets definitely help in these planning but they have their limitations. Managing multiple spreadsheets, updating them daily, multi user access to them, alerts out of them and ultimately analytics out of their data is much difficult if not possible. Even obtaining skilled staff or training the staff for this will be a difficult job. A specific software solution to cater to these needs will be very handy, which with ease of use and much effort will manage all these pain points.

DIGIEN CA OFFICE^{PRO}

DigiEn CA Office^{Pro} offers to assist Chartered Accountants in their daily jobs. DigiEn CA Office^{Pro} provides facility to plan, manage & track all the jobs done by the CAs. It has easy to understand process & user friendly interface. It extends solution not just to manage the tasks but also to manage the business. Along with Project Management, it comes with its own invoicing, inventory, accounting & HR solutions.

- * Automates many routine activities
- * Processes tasks faster

DIGIEN CA OFFICE PRO

- * Predefined workflow to make operations simpler
- * Schedules important items
- * Increases productivity of employees
- * Gives you ratio analysis
- * Access from anywhere

Plan the routine tasks of all year long in the beginning and keep on track the smooth process then on. Each employee knows exactly on which day what does one has to work on. No more sending reports at the end of the day as one can check progress of organization in real-time. And you come to know about important development as soon as it happens. This makes analysis of organization's growth easily available. Detailed, pin-pointing & informative outcomes of the work done by the organization are available at any time. And most importantly convert this progress into financial incomes for the company.

Client	Service	Month/Year	Category	Task	Owner	Start Date	End Date	Current Status	Last Date
38TH ANGCON SURAT	MONTHLY	5/2020	GST	GSTR - 1	Mr Harshad Kumbharjya	01/05/20	11/05/20	Pending	01/05/20
38TH ANGCON SURAT	MONTHLY	5/2020	GST	GSTR - 2	Mr Harshad Kumbharjya	01/05/20	31/05/20	Pending	01/05/20
38TH ANGCON SURAT	MONTHLY	5/2020	GST	GSTR - 3B	Mr Harshad Kumbharjya	01/05/20	20/05/20	Pending	01/05/20
A Z CHAUDHARY CONSTRUCTION PRIVATE LIMITED	MONTHLY	5/2020	GST	GSTR - 1	Mr Harshad Kumbharjya	01/05/20	11/05/20	Pending	01/05/20
A Z CHAUDHARY CONSTRUCTION PRIVATE LIMITED	MONTHLY	5/2020	GST	GSTR - 2	Mr Harshad Kumbharjya	01/05/20	31/05/20	Pending	01/05/20

In all, a specific tool to manage the CA business is much required today than just an accounting tool to write accounts of the clients. CAs need to fine-tune their operations with just a little help of the technology. An all-time available, real-time data of the job will be far much advantageous. Well planned, managed & tracked business always sees the

upward trajectory. DigiEn will always be delighted to be part of the ever-progressing industry.
